EE422C Project 4 (Critter Simulator Part 1) Team Plan

Megan Peregrino mnp624

Ban-Yun "Toby" Pan bp9594

Fall 2016

Toby worked on makeCritter, getInstance, run, and walk and created the classes Critter 3 and Critter 4. Megan worked on reproduce and the controller commands and created the classes Critter 1 and Critter 2. Together, we worked on worldTimeStep, clearWorld, and displayWorld and debugged and tested the code. We spent approximately 11 hours together working on the project.
